PROFESSIONAL SUMMARY

Motivated Full-Stack Web Developer building production-ready web applications using React.js, Next.js, Node.js, and MongoDB. Proficient in AI-assisted development workflows — actively using Claude (Anthropic) to accelerate delivery and solve complex problems. Strong foundation in REST APIs, authentication systems, and responsive UI design. Fast learner with a problem-solving mindset, eager to contribute to real-world AI-powered projects.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Next.js 16 (App Router), Tailwind CSS v4, HeroUI v3, DaisyUI v5, React Router v7, Swiper.js

Backend: Node.js, Express.js v5, REST API Design

Database & Auth: MongoDB, Better Auth v1.6

AI Dev Tools: Claude (Anthropic), ChatGPT, Gemini, Antigravity IDE, Google Stitch

Design Tools: Figma, Pixso, Canva

Tools: Git, GitHub, VS Code, Vercel, Netlify

PROJECTS

MealMind AI — AI-Assisted Recipe Platform *Next.js 16 · TypeScript · Better Auth · Express · MongoDB* [Live Demo →](#)

- Built an AI-assisted recipe platform where users explore a curated recipe library with advanced search/filters, generate new recipes from available ingredients via AI, and chat with a recipe-aware AI assistant powered by Groq (Llama 3.3 70B).
- Solved a cross-origin authentication challenge by configuring a Next.js API rewrite to keep the session cookie first-party across separately deployed Vercel and Render domains; implemented Better Auth with email/password and Google OAuth.

SunCart — E-Commerce Web App *Next.js 16 · React 19 · HeroUI v3 · Better Auth · MongoDB* [Live Demo →](#)

- Developed a summer-themed e-commerce platform with product catalog, category browsing, ratings, and Swiper.js brand carousel.
- Integrated Better Auth for sign-up, login, and protected routes backed by MongoDB Atlas; deployed on Vercel.

KeenKeeper — Personal Relationship Management App *React 19 · Vite · Tailwind CSS · DaisyUI · Recharts* [Live Demo →](#)

- Built a personal CRM-style SPA to log and track connections with interaction history and a Recharts-powered analytics dashboard.
- Implemented React Router v7 for multi-page navigation, donut chart friendship stats, and DaisyUI v5 component system.

EDUCATION

BSc in Computer Science & Engineering — Green University of Bangladesh

2022 – Present

COURSES & CERTIFICATIONS

Level-1 Web Development (MERN Stack) | Programming Hero

Completed

Shopify Development | Shikhbe Shobai

Completed
